<b>Subject:</b>	(U) Potentially Sensitive Files From More Than 200 U.S. Police Departments, FBI Offices Published Online; Documents Reportedly Obtained By Anonymous-Aligned Hackers--MMC IOI #1732-20
<b>Date:</b>	2020/06/24 17:16:11
<b>Priority:</b>	Normal
<b>Type:</b>	Note

## Unclassified

### Location(s): United States

- • An anonymous group has published hundreds of thousands of potentially sensitive files from more than 200 police departments and FBI offices across the United States, media reported Wednesday
  - • The collection, dubbed "BlueLeaks" and made searchable online, has nearly 270 gigabytes worth of internal memos, emails, and officers' personal information
- • The release came from a group called the Distributed Denial of Secrets, or DDoSecrets
  - • In a post on Twitter, DDoSecrets said the collection includes "10 years of data from over 200 police departments, fusion centers and other law enforcement training and support resources," and that "among the hundreds of thousands of documents are police and FBI reports, bulletins, guides and more"
  - • The documents were obtained by hackers who said they were aligned with Anonymous
- • The data appears to be stolen from a security breach at Netsential, according to a National Fusion Center Association memo
  - • Some of the documents leaked suggest that the FBI is collecting intelligence on recent gatherings from social media and feeding it to local police departments

**Analyst's Note:** The MMC reported on the recent gatherings across the United States under NOC 0378-20

Below is a summary of the NOC MMC reporting for the subject period:

1. • Total number of reports: **72**
2. • Total number of aviation bomb threats: **1**
3. • Total number of non-aviation events sent via HSIN Chat: **142**
  - a. • **NOC 0402-20: Bighorn Fire – Pima County, AZ** (Total of **14** reports; **2** during this reporting period)
    - i. The Bighorn Fire in Pima County, Arizona, is 19 percent contained as of Saturday, while officials previously stated containment was at 21 percent.
    - ii. The Bighorn Fire in Pima County has grown to 51,628 acres and with 19 percent containment as of early Sunday.
  - b. • **NOC 0432-20: Bush Fire – Maricopa County, AZ** (Total of **4** reports; **4** during this reporting period)
    - i. The Bush Fire northeast of Mesa, Arizona, has grown to nearly 175,000 acres and is seven percent contained as of Saturday, according to fire officials.
    - ii. On Saturday night, the Gila County Sheriff's Office said the following evacuated communities may return home on Sunday at 9 a.m. local time: Tonto Basin, Punkin Center, Pioneer Pass, Brownsville, State Creek, and Jakes Corner.
    - iii. The Bush Fire in Maricopa County grew more than 10,000 acres overnight to a total of 184,531 acres by Sunday, according to officials, and said the human-caused fire was 15 percent contained.
      1. • Evacuation orders were lifted Sunday morning for several communities, including Tonto Basin, Punkin Center, Pioneer Pass,

Brownsville, Slate Creek, and Jake's Corner, officials previously announced.

2. • The American Red Cross closed the evacuation centers in Payson and Miami at noon local time due to the evacuations being lifted.
3. • FEMA authorized the use of federal funds to assist Arizona in combating the Bush Fire. On Saturday, Arizona submitted a request for a Fire Management Assistance Grant (FMAG), which FEMA approved.
- iv. The Bush Fire is at 42 percent containment in Maricopa County as of Sunday evening local time, according to fire officials.
- c. • **NOC 0051-20: COVID-19 – U.S.** (Total of **1570** reports; **21** during this reporting period)
  - i. United States
    1. • As of 12:33 a.m. EDT Monday, 2,279,879 coronavirus cases and 119,969 related deaths have been confirmed in the United States, according to Johns Hopkins University.
    2. • Eight states are currently seeing their highest seven-day averages of new coronavirus cases per day, according to a media analysis of data from Johns Hopkins University on Friday.
    3. • The Cruise Lines International Association announced Friday that ships will not be sailing from U.S. ports throughout the summer, extending a pause put in place because of the coronavirus pandemic.
      - a. • The current no-sail order issued by the U.S. Centers for Disease Control and Prevention on March 14 is set to expire July 24.
      - b. • The association says cruise lines have decided to voluntarily prolong this pause until September 15 because they need time "to resolve barriers" with U.S. authorities to restart sailing.
    - i. The association represents 95 percent of the global cruise industry.
    4. • The Pentagon on Friday announced it is lifting coronavirus-related travel restrictions for U.S. military personnel in 46 states, as well as in the U.S. territories of Guam and Puerto Rico.
      - a. • Among the states deemed fit for a resumption of travel by military personnel is Arizona, which has had a sharp spike in confirmed COVID-19 cases over the past two weeks, as well as others with notable recent upticks in infections, including Alabama, Texas, and Oklahoma.
      - i. Only four states, California, North Carolina, Florida, and Minnesota, are not included in the loosening of travel restrictions by the Pentagon.
    5. • According to the Pentagon, 8,824 members of the U.S. military have tested positive for COVID-19.
      - a. • Of them, 230 have been hospitalized and three have died.

6. • The U.S. Department of State says COVID-19 infections have been reported at the U.S. Embassy in Kabul and affected staff include diplomats, contractors, and locals, media reported on Saturday.
  - a. • The State Department did not say how many were affected. An official at the embassy said up to 20 people were infected, the majority of whom provide embassy security.
7. • The National Institutes of Health (NIH) announced Saturday that it has halted its trial of the drug hydroxychloroquine for the treatment of adults hospitalized with COVID-19. "A data and safety monitoring board met late Friday and determined that while there was no harm, the study drug was very unlikely to be beneficial to hospitalized patients with COVID-19," the NIH said in a statement.
8. • A presidential campaign confirmed six staffers working at a gathering in Tulsa tested positive for coronavirus, media reported Saturday
  - a. • "Per safety protocols, campaign staff are tested for COVID-19 before events. Six members of the advance team tested positive out of hundreds of tests performed, and quarantine procedures were immediately implemented," an official said.

ii. Alaska

1. • The number of active COVID-19 cases reported Saturday among Alaskans reached the highest level yet as the state contends with its second wave of rising coronavirus cases since the pandemic began.
  - a. • Alaska's health department data released Saturday showed 267 active resident cases. That number, which peaked at 188 during Alaska's first wave of active infections, has been growing steadily this month after the state in May lifted most pandemic restrictions on businesses and social gatherings.

iii. Arizona

1. • Arizona averaged about 1,740 new cases per day over the week, this is a 45 percent increase from the previous seven-day period.
2. • Arizona state health officials reported 2,592 new COVID-19 cases Sunday morning. Confirmed cases went up to 52,390. Arizona reported one additional COVID-19-related death. The statewide death toll is now 1,339.
  - a. • While 566,937 people have been tested for the virus, 8.2 percent of those that have been processed have come back positive.

iv. Arkansas

1. • Arkansas has reported 415 new cases, according to officials.

- a. • Of the new cases, 35 were in correctional facilities, meaning that 380 cases were from community spread, the officials said.
- b. • The governor's office said that this is the largest increase of community spread cases the state has seen since it began reporting COVID-19 cases.
- c. • The state has reported 14,631 total cases and 214 deaths.

v. California

- 1. • California averaged about 3,387 new cases per day over the last week.
  - a. • This seven-day average is up roughly 12 percent from the previous seven-day period.
  - b. • The officials attributed the large number of cases to an increase in testing capacity and delayed testing results coming in from an earlier period.
- 2. • California reported 4,515 new coronavirus cases on Sunday, a daily record, bringing the total in the state to 173,824, media said Sunday.
- 3. • The number of deaths increased by 71 to 5,495, according to data the state released Sunday.

vi. Florida

- 1. • Florida averaged about 2,408 new cases per day over the last week, up approximately 90 percent from the previous seven-day period.
- 2. • The state of Florida has reported the most cases of coronavirus in a single day since the pandemic began.
  - a. • The Florida Department of Health is reporting an additional 4,049 cases of coronavirus on Saturday this marks the highest number of reported cases in a single day.
- 3. • The Florida Department of Health has reported 3,494 new cases of coronavirus on Sunday, bringing the state total to 97,291.
  - a. • The Florida governor's office said cases are "shifting in a radical direction" toward populations in their 20s and 30s.

vii. Hawaii

- 1. • Hawaii saw a spike in COVID-19 cases on Friday, with 27 new cases reported statewide, according to media.
  - a. • This represents the largest single-day spike since April 4, and brings the statewide total of cases to 789.

viii. Massachusetts

- 1. • will allow indoor dining and close-contact services, such as nail salons, to reopen on Monday, as it enters the second half of its phase two reopening, the state announced on Friday.
  - a. • Offices may also increase office capacity from 25 percent to 50 percent capacity.

- b. • The announcement comes after COVID-19 hospitalizations dropped below 1,000, the lowest since at least mid-April.
- c. • The state will wait for at least two weeks of data from indoor dining before considering moving into phase three of its four-stage reopening plan, pinning that start date to the beginning of July at the earliest

ix. Missouri

- 1. • Missouri officials reported the state's highest single-day increase of COVID-19 cases since the beginning of the outbreak on Saturday as the virus continues to spread in more of Missouri's rural areas.
  - a. • Public health officials reported 389 new virus cases on Saturday, raising the state's total to 17,590. More than 955 people have died in the state so far. According to the state, Barton, McDonald, Jasper, Newton, Barry, Laclede, Stone, Taney, Butler, and Cooper counties have seen the highest percent increase in the past seven days.

x. Nevada

- 1. • Nevada averaged about 242 new cases per day over the last week, up roughly 26 percent from the previous seven-day period.

xi. New York

- 1. • Elsewhere, New York City (NYC) is on track to enter Phase 2 of reopening on Monday, according to the New York governor's office.
  - a. • New York state reported 664 coronavirus cases, 1,142 hospitalizations, and 15 deaths across the state on Sunday.

xii. Oklahoma

- 1. • Oklahoma averaged about 247 new cases per day over the last week. This is up approximately 140 percent from the previous seven-day period.
- 2. • Tulsa County reported a new record of daily coronavirus infections on Saturday, according to data from the Oklahoma State Department of Health and the Tulsa health department's websites
  - a. • There were at least 136 new coronavirus cases reported in Tulsa County in the past 24 hours
  - b. • This is the fifth time this week that the county has reported a new record high
  - c. • There are now at least 772 current active cases in Tulsa County and approximately 66 people have died
- 3. • Oklahoma has surpassed 10,000 confirmed coronavirus cases and a senior official of the state's Department of Health says a surge in cases was expected after the state began reopening.
  - a. • The Oklahoma health department on Saturday reported 331 new virus cases to bring the number of confirmed cases to 10,037 with 368 deaths due to COVID-19.

xiii. South Carolina

1. • South Carolina averaged about 727 new cases per day over the last week, which is an increase of about 26 percent from the previous seven-day period.

xiv. Texas

1. • Texas averaged about 2,657 new cases per day over the last week, up approximately 54 percent from the previous seven-day period.

xv. Utah

1. • Utah averaged about 370 new cases per day over the last week.
  - a. • Even though this is the largest seven-day average of daily new cases for Utah, the percentage change is relatively flat - up just about 6 percent - from the previous seven-day period.
2. • The Utah Department of Health reported 643 new COVID-19 cases and no new deaths on Saturday. This shatters the record made on Friday of the biggest single-day increases in cases in the state including 586 cases and the previous high was 556 cases on June 5, part of an upward trend that started in the last few days of May.
  - a. • Utah has recorded 155 deaths and more than 17,000 cases of the virus while giving more than 292,000 tests. Since Friday's report, 5,519 tests were administered with a positive rate of 5.8 percent.

xvi. Washington, D.C.

1. • The Mayor of Washington, D.C., announced in a statement Friday that the nation's capital is set to enter phase two of reopening on Monday, June 22.
  - a. • Nonessential retail can open at 50 percent capacity and restaurants can have indoor dining at 50 percent capacity.
  - b. • Houses of worship are encouraged to hold virtual services, but are permitted to have up to 100 people, or 50 percent capacity.
- i. Washington, D.C., recommends that churches do not have choirs or singing.
- c. • Personal services, including nail care, tattooing, and waxing, will be permitted with certain restrictions in place.
- d. • Gatherings of more than 50 people are still banned.
2. • According to the mayor's news release, the District's reported data for Thursday includes 49 new positive coronavirus cases, bringing the District's overall positive case total to at least 9,952.
  - a. • The District reported three additional COVID-19 related deaths.

xvii. China

1. • China reported new coronavirus cases Sunday in outbreaks that threatened to set back their recovery
  - a. • Chinese authorities recorded 25 new confirmed cases, including 22 in Beijing
  - i. In the past week, Beijing tightened travel controls by requiring anyone who wants to leave the Chinese capital, a city of 20 million people, to show proof they tested negative for the virus

xviii. Australia

1. • Australia's second most populous state, Victoria, announced on Saturday it will reinstate tighter restrictions on home and public gatherings after logging a double digit rise in coronavirus cases for a fourth straight day.
  - a. • The restrictions impose a limit of five people visiting households and 10 people at public gatherings, which come into force on Monday and will last until July 12.
  - i. This reverses a relaxation of the rules at the start of this month that had allowed for home and outdoor gatherings of up to 20 people.
  - b. • State officials reported 25 new COVID-19 cases on Saturday, with Victoria representing about a quarter of Australia's 7,400 total cases.
  - c. • Australia has reported just 102 deaths related to COVID-19.

xix. Brazil

1. • Brazil passed a total of more than one million coronavirus cases and nearly 50,000 deaths, according to health ministry data on Friday.
  - a. • Brazil has recorded 1,032,913 confirmed cases, second only to the United States, with 1,206 new deaths reported on Friday to take the total official fatalities to 48,954, the ministry said.

xx. Chile

1. • Chile nearly doubled its coronavirus death toll Saturday to more than 7,144 under a new tallying method that includes probable fatalities from COVID-19, the health ministry announced.

xxi. Costa Rica

1. • Costa Rica's government will halt reopening the country's economy due to an increase in the number of coronavirus cases over recent days.
  - a. • Over the last 24 hours, Costa Rica has registered a record 119 new coronavirus infections, bringing the total number of confirmed cases to 2,058 and 12 deaths.

xxii. Cyprus

1. • Cyprus started reopening crossings between the Turkish and Greek Cypriot sides on Sunday after being shut for more than three months because of the COVID-19 pandemic.
  - a. • For most Cypriots, movement between the two parts of the divided Mediterranean remained restricted, as the two sides applied different sets of rules.
  - b. • Cyprus's internationally recognized government, which in effect controls only the south of the island, said it would permit crossings from Sunday for those who can produce a negative test for COVID-19 each time they cross.
  - c. • Turkish Cypriot authorities also made the tests a requirement, and said only certain groups of individuals could cross.

xxiii. Czech Republic

1. • The Czech Republic reported its biggest one-day jump in new coronavirus cases in two months on Friday, with the rise exceeding 100 for only the third time since mid-April.
  - a. • The number of new cases was 118 on Thursday, the health ministry said, the largest daily rise since April 21.
  - b. • The central European country has since May been relaxing lockdown rules, with more easing planned from Monday.
  - i. A senior health official said the jump was caused by more cases in eastern localities, which have been identified as a hotbed, together with the capital Prague.
  - ii. "To these localities, the relaxation of measures planned for June 22 won't apply, visits to medical and social facilities will be limited and compulsory testing of staff will be reinstated," the official stated.

xxiv. Ethiopia

1. • Ethiopia's confirmed COVID-19 cases reached 4,532 after 63 new COVID-19 positive cases were confirmed on Sunday.

xxv. Europe

1. • Coronavirus cases have exceeded 2.5 million in Europe, media report on Saturday.

xxvi. France

1. • In France, casinos and amusement arcades will be allowed to reopen on Monday.
  - a. • Team sport practice will also be allowed to resume Monday, but contact sports remain banned.
  - b. • France has recorded 196,083 coronavirus cases and 29,620 deaths, according to Johns Hopkins University.

xxvii. Germany

1. • A single meatpacking plant in Germany has had over 1,000 cases, so the regional government issued a quarantine for all 6,500 workers, managers, and family members.
2. • Germany's coronavirus reproduction rate jumped to 2.88 on Sunday, up from 1.79 a day earlier, a rate showing infections are rising above containment level.

xxviii. India

1. • India reported a record daily jump in the number of novel coronavirus cases on Friday as the southern city of Chennai locked down following fresh outbreaks there.
  - a. • Data from India's federal health ministry on Friday showed an additional 13,500 cases over the previous 24 hours, with over 300 deaths.
  - b. • India has 395,048 cases and 12,948 deaths, according to Johns Hopkins University on Saturday.
2. • India reported another record jump in coronavirus infections on Saturday, a day after the government in the capital of New Delhi ordered hospitals to cancel any leave and have workers return to duty immediately.
  - a. • India saw an increase of 14,516 COVID-19 cases, the health ministry said, taking the total to 395,047 with 12,948 deaths.
    - i. It now has the world's fourth highest number behind the United States, Brazil, and Russia.
  - b. • In a memo to all government hospitals on Friday, the Delhi government ordered all leave canceled and said further leave would only be granted under the most compelling circumstances.

xxix. Indonesia

1. • Indonesia reported 1,226 new coronavirus infections, taking the total number of cases in the country to 45,029.
  - a. • A health ministry official said there were 56 more deaths reported, with total fatalities now at 2,429.

xxx. Ireland

1. • Ireland plans to accelerate the lifting of its coronavirus lockdown for the second time in the coming weeks, the country said Friday
  - a. • Churches, hairdressers, cinemas, theaters, and gyms will open on June 29, ahead of the government's initial schedule, and all sporting activities will also be allowed and mass gatherings permitted at a capacity of 50 for indoor activities and 200 for outdoor activities.
  - b. • However, Ireland's 14-day quarantine for people arriving from other countries will remain in place at least until July 9 and the government will review the issue at a meeting next week.
  - c. • The country has suffered 1,714 deaths from the coronavirus, according to the country's Department of Health figures released on Friday.

xxxi. Kazakhstan

1. • Kazakhstan, which has 25,000 confirmed cases, has also introduced new weekend restrictions.
  - a. • It has closed all shopping malls, markets, and parks in major cities as it fights a second wave of the outbreak.

xxxii. Kyrgyzstan

1. • Kyrgyzstan has shut down public transport in the capital of Bishkek and the routes between all of its provinces until Monday, the country said on Saturday.
  - a. • The move came as the number of new coronavirus cases in the Central Asian nation rose by 192.
  - b. • The country, which now has 2,981 reported cases of the virus, ended a state of emergency accompanied by curfews and lockdowns in May.

xxxiii. Mexico

1. • Coronavirus deaths in Mexico surpassed 20,000 on Friday after the health ministry reported 647 new fatalities and 5,030 new confirmed cases.
  - a. • Total cases now stand at 170,485 with 20,394 fatalities.

xxxiv. Norway

1. • In Norway, police said on Friday they were concerned that the social and economic strains caused by the coronavirus pandemic could lead to more radicalization and extremist violence.
  - a. • "It's likely that an increased number of Norwegians will become vulnerable to [radicalization] as a result of social and economic challenges following the COVID-19 pandemic," the Norwegian Police Security Service (PST) said.
  - b. • While the risk of suffering one or more mass attacks in the next 18 months remains at a 50-50 probability, in line with an assessment presented at the start of the year, threats

against individuals are likely to rise, albeit from low levels, the PST said.

xxxv. Pakistan

1. • Pakistan has reported 153 fatalities in a new daily record for COVID-19 deaths as infections across the country continued to spiral.
  - a. • The total death toll now stands at 3,382 and the total number of confirmed cases is 171,665.
  - b. • Despite urging from medical professionals and the World Health Organization, Pakistan has refused to impose strict lockdowns.

xxxvi. Russia

1. • Russia on Saturday reported 7,889 new cases of the coronavirus, pushing its nationwide case tally to 576,952 since the crisis began
2. • One hundred sixty-one people have died in the last 24 hours, bringing the official death toll to 8,002.

xxxvii. Saudi Arabia

1. • The number of coronavirus cases in Saudi Arabia exceeded 150,000 on Friday following a rise in new infections over the past 10 days.
  - a. • The Saudi Ministry of Health reported 4,301 new cases on Friday, taking the total to 150,292, with 1,184 deaths.
  - b. • The number of new infections has continued to rise in recent weeks, as authorities began phasing out restrictions on movement and travel on May 28.
  - c. • Saudi Arabia's numbers are the highest in the six-nation Gulf Cooperation Council (GCC), which has recorded 366,677 cases and 2,072 deaths.
2. • Saudi Arabia will lift a nationwide curfew and resume all economic and commercial activities as of Sunday morning.
  - a. • The curfew will be lifted as of 6 a.m. local time Sunday, while Umra, international flights, entry to the kingdom across land borders, and social gatherings of more than 50 people remain suspended.

xxxviii. Slovakia

1. • Slovakia, which has one of Europe's lowest death tolls from COVID-19, will allow its citizens to travel to Poland beginning Saturday as it further eases measures to combat the pandemic.
  - a. • The death toll stood at 28 on Friday.
  - b. • The government has been cautious in loosening measures and for now will keep face coverings in closed spaces mandatory.

xxxix. South Africa

1. • South Africa reported a one-day high of almost 5,000 new cases on Saturday and 46 deaths.
  - a. • Despite the increase, officials announced a further loosening of one of the world's strictest lockdowns.

xl. South Korea

1. • South Korea reported new coronavirus cases Sunday in outbreaks that threatened to set back their recovery.
  - a. • Nearly 270 infections have been traced to a door-to-door sales company and table tennis club in Seoul.

xli. Spain

1. • Spain reported on Friday a total of 28,313 coronavirus deaths as of Thursday, after adjusting its database to avoid duplications and errors, a health ministry official said.
  - a. • The death toll series had not been updated since June 7, when Spain reported 27,136 deaths, while the country was implementing a new methodology for logging deaths and cases.
2. • Spain opened its borders to most European countries and ended a state of emergency imposed to contain the coronavirus, media reported Sunday.
  - a. • Spain's borders are now open to all European Union countries except Portugal, as well as Schengen Area members outside the bloc and the United Kingdom.
  - b. • British tourists will be allowed in without having to quarantine, Spain said on Saturday, even though they will still be subject to 14 days of isolation upon their return.
  - c. • Spaniards were also allowed to move freely around the country from Sunday and many were expected to visit friends, relatives, and second homes in other regions.

xlii. Switzerland

1. • Switzerland will allow events of up to 1,000 people again from next week as cases of the new coronavirus wane, the government said on Friday, declaring their country better equipped to handle any fresh flare-ups.
  - a. • "As of Monday, June 22, the measures put in place to tackle the coronavirus will for the most part be lifted. Only the ban on large-scale events will remain in place until the end of August," the cabinet said.
  - i. The government appealed to the public to maintain proper hygiene and physical distancing, but scrapped a recommendation to work from home and cut the safe distance for interaction with strangers to 1.5 meters from two.
  - b. • New cases have dwindled to a few dozen a day, allowing Switzerland to reopen schools, shops, and borders with

fellow members of the Schengen passport-free travel zone as life returns to near-normal.

xliii. United Kingdom

1. • The United Kingdom's chief medical officers have agreed that the COVID-19 threat level should be lowered one notch to "epidemic is in general circulation" from "transmission is high or rising exponentially," media reported Friday.
  - a. • The Joint Biosecurity Centre recommended the COVID-19 alert level should move to level 3, meaning a COVID-19 epidemic is in general circulation, from level 4, meaning a COVID-19 epidemic is in general circulation and transmission is high or rising exponentially.

xliv. West Bank

1. • The Palestinian Authority announced Saturday it was temporarily closing the cities of Hebron and Nablus in the West Bank after a sharp rise in infections.

xlv. Worldwide

1. • As of 12:33 a.m. EDT Monday, 8,952,428 cases and 468,331 deaths have been reported worldwide, according to Johns Hopkins University
2. • The World Health Organization (WHO) stated that the coronavirus pandemic is "accelerating" and that more than 150,000 cases were reported on Thursday, the highest single-day number so far.
  - a. • In a media briefing on Friday, the WHO stated nearly half of the newly reported cases were from the Americas, with significant numbers from South Asia and the Middle East.
  - b. • "We are in a new and dangerous phase," a senior WHO official said, warning that restrictive measures are still needed to stop the pandemic.
    - i. The official added, "Many people are understandably fed up with being at home (and) countries are understandably eager to open up their societies."
    - ii. However, the WHO warned that the virus is still "spreading fast" and that measures like social distancing, mask wearing, and hand-washing are still critical.
    - iii. The official noted the toll would be especially great on refugees in particular, of whom more than 80 percent live in mostly developing nations.

3. • Cases of COVID-19 in Latin America and the Caribbean exceeded two million, media reported Saturday.
4. • *The World Health Organization (WHO) reported a record increase in global coronavirus cases on Sunday, with the total rising by 183,020 in a 24-hour period.*
  - a. • *The biggest increase was from North and South America with over 116,000 new cases, more than two-thirds of the daily rise.*
    - i. *The UN health agency said Brazil led the way with 54,771 cases tallied, the United States next at 36,617, and third was India with over 15,400 cases.*
- d. • **NOC 0602-18: U.S. Southern Border Crisis – U.S. Southwest Border** (Total of **868** reports; **1** during this reporting period)
  - i. A dozen undocumented migrants were arrested Thursday after they were discovered inside a stack of hay aboard a tractor trailer at a checkpoint in Pine Valley, U.S. Border Patrol (USBP) said.
